

Farah Dermatology & Cosmetics
Informed Consent for Telemedicine Services

PATIENT NAME AND EMAIL ADDRESS:	PATIENT LOCATION:
PATIENT DATE OF BIRTH:	DATE OF CONSENT:
PHYSICIAN NAME:	PHYSICIAN LOCATION:

Introduction:

Telemedicine involves the use of electronic communications to enable health care providers at different locations to share individual patient medical information for the purpose of improving patient care. Providers may include primary care practitioners, specialists, and/or subspecialists. The information may be used for diagnosis, therapy, follow-up and/or education, and may include any of the following:

- Patient medical records
- Medical images
- Live two-way audio and video
- Output data from medical devices and sound and video files

Electronic systems used will incorporate network and software security protocols to protect the confidentiality of patient identification and imaging data and will include measures to safeguard the data and to ensure its integrity against intentional or unintentional corruption.

- *In an effort to overcome access hurdles during the COVID 19 crisis, as of 3/17/20 the federal government has eased previous HIPAA privacy rules requirements and has enabled health care providers to use platforms such as FaceTime and Skype. Such solutions are secure and encrypted; however, for administrative reasons are considered NON-HIPAA compliant (in terms of pre-COVID 19 regulations).*

Expected Benefits:

- Improved access to medical care by enabling a patient to remain in his/her dermatology's office (or at a remote site) while the physician obtains test results and consults from healthcare practitioners at distant/other sites.
- More efficient medical evaluation and management.
- Obtaining expertise of a distant specialist.

Possible Risks:

As with any medical procedure, there are potential risks associated with the use of telemedicine. These risks include, but may not be limited to:

- In rare cases, information transmitted may not be sufficient (e.g. poor resolution of images) to allow for appropriate medical decision making by the physician and consultant(s);
- Delays in medical evaluation and treatment could occur due to deficiencies or failures of the equipment;
- In very rare instances, security protocols could fail, causing a breach of privacy of personal medical information;
- In rare cases, a lack of access to complete medical records may result in adverse drug interactions or allergic reactions or other judgment errors;

By signing this form, I understand the following:

1. I understand the laws that protect privacy and the confidentiality of medical information also apply to telemedicine, and that no information obtained in the use of telemedicine which identifies me will be disclosed to researchers or other entities without my consent.
2. I understand that I have the right to withhold or withdraw my consent to the use of telemedicine in the course of my care at any time, without affecting my right to future care or treatment.
3. I understand that I have the right to inspect all information obtained and recorded in the course of a telemedicine interaction, and may receive copies of this information for a reasonable fee.
4. I understand that a variety of alternative methods of medical care may be available to me, and that I may choose one or more of these at any time. My dermatologist and/or staff has explained the alternatives to my satisfaction.
5. I understand that telemedicine may involve electronic communication of my personal medical information to other medical practitioners who may be located in other areas, including out of state.
6. I understand that it is my duty to inform my dermatologist of electronic interactions regarding my care that I may have with other healthcare providers.
7. I understand that I may expect the anticipated benefits from the use of telemedicine in my care, but that no results can be guaranteed or assured.
8. Farah Dermatology & Cosmetics will email me the fee for these services. I agree to pay this electronically prior to the telemedicine encounter via the email that has been sent to me.
9. If the physician feels that an in-person visit is necessary, and it is scheduled within 2-3 weeks of the telemedicine encounter, the telemedicine charge will be applied to that visit.

Patient Consent To The Use of Telemedicine

I have read and understand the information provided above regarding telemedicine, have discussed it with my physician or such assistants as may be designated, and all of my questions have been answered to my satisfaction. I hereby give my informed consent for the use of telemedicine in my medical care. I have been offered a copy of this consent form.

I hereby authorize **Farah Dermatology & Cosmetics** to use telemedicine in the course of my diagnosis and treatment.

Signature of Patient (or person authorized to sign for patient): _____ *Date:* _____

If authorized signer, relationship to patient: _____
